Skills Leap Australia.

CASE STUDY

Learn how Skills Leap Australia helped Engineering Education Australia to consolidate and automate its learning reporting systems in one Canvas reporting dashboard.

LMS
- Canvas

Applications
- Tableau
- Salesforce
- Zoom
- Learning Record Store (LRS)
- SCORM Package

Skills Leap Australia was engaged to analyse the current status and develop a unified solution within Canvas LMS.

CURRENT STATUS

Engineering Education Australia recognised that it is time-consuming and inefficient to monitor and report students' progress by accessing many applications and pulling the data from each one individually. It was identified that the current status has many issues such as:
- Human errors when consolidating the
- individual reports in one report
- Time-consuming
- Delay in sharing the reports with the clients
- Uninformed Management
- Loss of data
- Lack of holistic view of students' progress
- Lack of "Student Intervention" at the right time

SOLUTION

Skills Leap Australia developed an LTI centralised reporting dashboard that presents all the data from Canvas and the external applications in one place in Canvas. The reporting dashboard pulls the data via APIs and presents it in a visually appealing report that can be generated with one click and downloaded as PDF or CSV.

RESULTS
- Zero human errors as there is no need to manually
- consolidate the data from all applications
- Time-saving as the report can be generated with one click
- Reports are shared with the client on time
- Better informed management for decision making
- Zero loss of data
- A holistic view of student's progress
- "Student Intervention" at the right time
- Increased students' satisfaction
- Increased client satisfaction

Development Goals Dashboard

Each student has to complete certain assesments to get the goal points, then the points will be used to calculate goals for each students.

Skill Area Bar View

Goals Individual View

Attendance Module

The attendance currently measured into two diffrent ways, one is students will recieve unique link via salesforce CRM and students mark their attendance. Another way the teacher can manually enter the students attendance informations.

Development Goals

About Goals Dashboard

This report provides a visual summary of participant progress through the six development goals required to be set, reviewed, and completed throughout the Graduate Program.

The report is comprised of three sections:

1. Goals Progress—a summary of overall participant progress per goal, rendered as a pie chart segmented into 'Not Started', 'Set', Reviewed' and 'Completed'.

2. Skill Areas—a list of the various skill areas chosen by participants for their development goals

3. Individual Summaries— a summary of each participant's development goals.
